DESIGN EXPERIENCE

Miro's Adaptive Interfaces | SparkJam Hackathon

May 2026

- Designed high-fidelity UI prototypes for an accessibility onboarding experience for blind/low-vision users
- Awarded 5th place in Pathway One, recognized for research depth and accessible UI design.
- Developed a user persona grounded in secondary research to anchor design decisions and communicate findings during mentor critiques and the final pitch.

Translink Interactive Map | Interaction Design (IAT333)

January 2025 – April 2025

- Directed visual design for posters and presentation materials aligned with TransLink's design system
- Co-facilitated client meetings, gathering feedback, managing project scope, and supporting workshop
- Performed ethnographic recruitment around the fare gates, collecting observations and data

BC Healthcare App | Interface Design (IAT333)

September 2024 – December 2024

- Conducted thematic analysis of research findings into actionable design recommendations
- Co-facilitated client meetings and workshops, synthesizing feedback and helping define project scope.
- Performed on-site ethnographic research at fare gates, documenting passenger behaviour and usage patterns.

WORK EXPERIENCE

Shift Leader | Marks

September 2024 – Present

- Managed shift workflows and service delivery, ensuring a consistent and structured customer experience
- Mentored team members on product knowledge and sales techniques to drive performance and engagement.
- Addressed customer friction points through complaint resolution, reinforcing experience improvement practices.

EDUCATION

Simon Fraser University

Bachelor of Arts | Major in Interactive Arts and Technology

September 2022 – Present

- Concentration in Interaction Design

TECHNICAL SKILLS

- **Design Tools:** UI/UX Design, Prototyping, Wireframing (Figma, Protopie), Visual Design (Illustrator, Adobe InDe
